FUTURE SITE OF THE JOHN FITZGERALD KENNEDY LIBRARY AT HARVARD SQUARE

From its earliest days Cambridge has been an important center for education. In 1636 the General Court of the Massachusetts Bay Colony voted to establish a college, shortly thereafter named Harvard College, as the first institution of higher learning in this country. For almost two hundred years, Cambridge remained a small university town. But during the 19th century, growth in industrialization, transportation and immigration fired the economy of the community, transforming Cambridge into a thriving industrial center. The demands of the second World War prompted a marked expansion in the research activities of the educational institutions. Sparked by this activity, education and industry have increasingly worked together and research and development activities have gradually emerged as a prime economic force in the community. Outstanding among Cambridge firms in such work is the Polaroid Corporation, today one of the nation's and the world's major corporation.

Two of the major accomplishments of the year 1965 in Cambridge were directly related to the presence of these educational and research facilities in Cambridge. The first of these was the decision by a special state commission to locate the John F. Kennedy Library in Harvard Square on the present transit yards of the Massachusetts Bay Transportation Authority. Also planned for the site is the John F. Kennedy Institute of Politics, a \$12 - \$15 million center to be built by Harvard in conjunction with the library.

A second highlight of 1965 was City Council approval of the Kendall Square Urban Renewal Project providing for the development of a site for the National Aeronautics and Space Administration's Electronic Research Center for which Congress authorized additional funds during the same year for initial construction. The commitment of a site for NASA, as well as for the Kennedy Library, is, in a way, an outgrowth of a chain of events which had its origin some 300 years ago with the beginning of the nation's first college on the quiet banks of the Charles River. The impact of these developments is certain to have far reaching consequences in shaping the Cambridge of tomorrow.

Other events of significance in 1965 included final City Council approval of plans for a new \$10 million main building at City Hospital (shown on page 29) for which construction was slated for 1966; approval of a \$700,000 addition to the Main Library; and final approval of the Wellington-Harrington Renewal Project. Council approval was also given to the proposed Harvard University underpass at the juncture of Cambridge Street and Broadway, a project designed to relieve traffic congestion on the City's main thoroughfares in the vicinity of Harvard Square.

## ARCHITECTURAL LANDMARKS

COOPER - FROST - AUSTIN HOUSE (c. 1680) at 21 Linnoean Street is the oldest house in Combridge. Chorocteristic seventeenth century features include the large pilostered central chimney, the projecting goble end, and the rear leon-to oddition. The site of the house once formed the northern boundary of the Combridge Common, now much reduced in size. Owned by the Society for the Preservation of New England Antiquities since 1912, the house is open to the public.

WATSON HOUSE (c. 1750) ot 30 Elmwood Avenue is a typicol eighteenth century formhouse, one of the few remoining in Combridge. Built originally in North Combridge, near the corner of Massachusetts Avenue ond Russell Street, it was moved to its present site in 1965 under the auspices of the Combridge Heritoge Trust. The simplicity of the Watson house controsts effectively with the grandeur of Elmwood, the monshion across the street.

Photo: B. Orr

ELMWOOD (1767) ot 33 Elmwood Avenue was built by Royalist Lieutenant Governor Thomas Oliver. Used as a hospitol during the Revolution, the estote was purchased after the wor by Elbridge Gerry, signer of the Declarotion of Independence, later Governor and Vice President. The poet Jomes Russell Lowell spent most of his life in the house, which now serves os the residence of the Deon of the Horvord Faculty of Arts and Sciences. The house ond its extensive grounds comprise the Lowell Historic District.

## OF HISTORIC CAMBRIDGE

LONGFELLOW HOUSE (1759) at 105 Brattle Street was built by Royalist John Vassall, Jr. and served as George Washington's headquarters during the Siege of Boston, 1775-76. The estate was subsequently bought by Andrew Craigie, first apothecary general of the American Army. Henry Wadsworth Longfellow, who acquired the house in 1843, wrote most of his poems there. Now open to the public under a trust set up by Longfellow's descendants, the house is the focus of the Longfellow Historic District.

Photo: S. T. Lo

LEE - NICHOLS HOUSE (c. 1660, 1760) at 159 Brattle Street results from an eighteenth century remodelling of a seventeenth century house, bringing it more in line with the other Georgian mansions along Tory Row. Judge Joseph Lee, who gave the house its present three-story form, had Tory sympathies but was allowed to return to his estate after the Revolution. Now owned by the Cambridge Historical Society, the house is open to the public. It lies within the Fayerweather-Lee Historic District.

Photo: S. T. Lo

FAYERWEATHER HOUSE (c. 1760) at 175 Brattle Street is another of the Tory Row mansions, most of which still survive even though their large estates have been subdivided. The house takes its name from Thomas Fayerweather, a patriot who bought it from Tory George Ruggles just before the Revolution. Having served as a military hospital after the Battle of Bunker Hill and as a boys' school in the nineteenth century, the house today forms the western limit of the Fayerweather-Lee Historic District.

## PUBLIC DEBT SUMMARY

During 1965 the City retired \$533,000 of its general obligation bonds and \$45,000 of its Water Debt. The following is a statement of the outstanding debt for this period:

	January 1, 1965	January 1, 1966
General-Inside		
Debt Limit \$	364,000.00	\$ 306,000.00
General-Outside		
Debt Limit	<u>6,335,000.00</u>	<u>5,860,000.00</u>
TOTAL	\$6,699,000.00	\$6,166,000.00
Water-Inside		
Debt Limit \$	9,000.00	\$ 4,000.00
Water-Outside		
Debt Limit	<u>280,000.00</u>	<u>240,000.00</u>
TOTAL	\$ 289,000.00	\$ 244,000.00
GRAND		
TOTAL	\$6,988,000.00	\$6,410,000.00

The major portion of Cambridge's bonded indebtedness is for previous school construction and comprises the obligations listed above as General-Outside Debt Limit. In 1965 the state assistance on the retirement of the school bond principal amounted to \$129,883.00. School bond issues are for a twenty-year period and prior commitments existing in 1965 will be completely liquidated by 1980.

In addition to the net amount paid by the City to reduce its debt, interest payments on the total debt outstanding amounted to \$175,619.00 in 1965. These debt service payments by the City, including both principal and interest charges, for the year represented a total of approximately \$2.77 on the tax rate of \$72.00 per thousand.
